The Language of the Heart

Oh, beloved ones, the consensual dream is being opened. Every open heart creates a hole in the membrane that has wrapped the world, letting the dream of duality continue. Every hole brings in the living Light, the waves of endless Love. Most of all, it brings the feelings of being the limitless heart of the Creator of All and being absolutely eternally capable of pure dominion with all life, consciously and fully. The heart is the perceiver of the hologram and the only instrument that can view life in its entirety.

The language of the heart is Love's movement. It is the feeling tones of the intimacies of divine Love singing itself alive in brand new ways as the conduit for the creation of life itself. It is that which brings through every particle of life I Am... the Moment of Creation...and the choice to focus it.

whatever is right, whatever is pure,
whatever is lovely, whatever is admirable -
if anything is excellent or praiseworthy -
think about such things.***

Message from the Masters

From Great and Growing Light We Greet You!

It is that your world is reaching a climax of energy in this now. There is a huge rise of energies coming to you like a tidal wave. It will peak about the 16th of January and will be causal to many great changes in your lives. These changes may be dramatic on many levels as some of you will find yourselves moving to other locations, changing jobs, relationships, or on the other side of that, becoming far more secure in everything that you currently experience. There will be vast openings of awareness on different plains of comprehension and new energy forces will be available to you. These energies will come in the form of the double helix, of combined geometries that are of a fullness you have not yet as human beings experienced. Contact with your higher being will be greatly easier, and healing with the coming energies will be of virtually unlimited possibilities as the new and coming energies will be full sets of changing harmonics.

The new energies are of combined sets that those in the before times used and understood. They can move mountains or make the subtlest attunements. It is these energies that are outside of gravity and are above limitation. To utilize them, you must realize that they are not outside of you; they are of you and part of you and you them. To comprehend this fully, know that **you must become that which you intend**. These energies are very different than what you had previously encountered. To use them do not see something as a possibility. Rather, see it as already done. In such a way, what is done is unquestionable and what is a possibility is not yet occurred.

This is a concept that the logical mind does not grasp but the consciousness already knows. Your mind is your limitation. Step outside the realm of what is possible and know that anything you can imagine can be done by your intent and your knowing that it is so. The time for your creative efforts is upon you and you are unlimited in scope. If you choose.
